MANAGEMENT DISCUSSION & ANALYSIS REPORT

1. OVERVIEW

The objective of this report is to convey the Management's perspective on the external environment and steel industry, as well as strategy, operating and financial performance, material developments in human resources and industrial relations, risks and opportunities and internal control systems and their adequacy in the Company during FY 2022-23. This should be read in conjunction with the Company's financial statements, the schedules and notes thereto and other information included elsewhere in this Report and Annual Accounts 2022-23. The Company's financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') complying with the requirements of the Companies Act, 2013, as amended and regulations issued by the Securities and Exchange Board of India ('SEBI') from time to time.

2. GLOBAL ECONOMY

The global economy is experiencing a number of turbulent challenges. Inflation higher than seen in several decades, tightening financial conditions in most regions, Russia's invasion of Ukraine, and the lingering COVID-19 pandemic all weigh heavily on the outlook. Normalization of monetary and fiscal policies that delivered unprecedented support during the pandemic is cooling demand as policymakers aim to lower inflation back to target. But a growing share of economies are in a growth slowdown or outright contraction. The global economy's future health rests critically on the successful calibration of monetary policy, the course of the war in Ukraine, and the possibility of further pandemic-related supply-side disruptions, for example, in China.

Global growth is forecast to slow from 6.0 percent in 2021 to 3.2 percent in 2022 and 2.7 percent in 2023. This is the weakest growth profile since 2001 except for the global financial crisis and the acute phase of the COVID-19 pandemic and reflects significant slowdowns for the largest economies: a US GDP contraction in the first half of 2022, a euro area contraction in the second half of 2022, and prolonged COVID-19 outbreaks and lockdowns in China with a growing property sector crisis. About a third of the world economy faces two consecutive quarters of negative growth. Global inflation is forecast to rise from 4.7 percent in 2021 to 8.8 percent in 2022 but to decline to 6.5 percent in 2023 and to 4.1 percent by 2024. Upside inflation surprises have been most widespread among advanced economies, with greater variability in emerging markets and developing economies.

Risks to the outlook remain unusually large and to the downside. Monetary policy could miscalculate the right stance to reduce inflation. Policy paths in the largest economies could continue diverging, further increasing US dollar appreciation and cross-border tensions. More energy and food price shocks might cause inflation to persist for longer. Global tightening in financing conditions could trigger widespread emerging market debt distress. Halting gas supplies by Russia could depress output in Europe. A resurgence of COVID-19 or new global health scares might further stunt growth. A worsening of China's property sector crisis could spill over to the domestic banking sector and weigh heavily on the country's growth, with negative cross-border effects. And geopolitical fragmentation could impede trade and capital flows, further hindering climate policy cooperation. The balance of risks is tilted firmly to the downside, with about a 25 percent chance of one-year-ahead global growth falling below 2.0 percent—in the 10th percentile of global growth outturns since 1970.

Warding off these risks starts with monetary policy staying the course to restore price stability. Front-loaded and aggressive monetary tightening is critical to avoid inflation de-anchoring as a result of households and businesses basing their wage and price expectations on their recent inflation experience. Fiscal policy's priority is the protection of vulnerable groups through targeted near-term support to alleviate the burden of the cost-of-living crisis felt across the globe. But its overall stance should remain sufficiently tight to keep monetary policy on target. Addressing growing government debt distress caused by lower growth and higher borrowing costs requires a meaningful improvement in debt resolution frameworks. With tightening financial conditions, macro-prudential policies should remain on guard against systemic risks. Intensifying structural reforms to improve productivity and economic capacity would ease supply constraints and in doing so support monetary policy in fighting inflation. Policies to fast-track the green energy transition will yield long-term payoffs for energy security and the costs of ongoing climate change. As Chapter 3 shows, phasing in the right measures over the coming eight years will keep the macroeconomic costs manageable. And last, successful multilateral cooperation will prevent fragmentation that could reverse the gains in economic well-being from 30 years of economic integration

The global economy is reeling from the largest energy crisis since the 1970s. The energy shock has pushed up inflation to levels not seen for many decades and is lowering economic growth all around the world. In the new *OECD Economic Outlook*, they are now forecasting that world growth will decline to 2.2% in 2023 and bounce back to a relatively modest 2.7% in 2024. Asia will be the main engine of growth in 2023 and 2024, whereas Europe, North America, and South America will see very low growth.

Higher inflation and lower growth are the hefty prices that the global economy is paying for Russia's war of aggression against Ukraine. Although prices were already creeping up due to the rapid rebound from the pandemic and related supply chain constraints, inflation soared and became much more pervasive around the world following Russia's invasion.

As a consequence of the unexpected surge in prices, real wages are falling in many countries, slashing purchasing power. This is hurting people everywhere. If inflation is not contained, these problems will only become worse. Thus, fighting inflation has to be our top policy priority right now.

Central banks around the world are increasing interest rates to curb inflation and anchor inflation expectations in their respective economies. This strategy is starting to pay off. For example, in Brazil, the central bank moved swiftly, and inflation has started to come down in recent months. In the United States, the latest data also seem to suggest some progress in the fight against inflation. Nevertheless, monetary policy should continue to tighten in countries where inflation remains high and broad-based.

In the fight against rising prices, it is also essential that fiscal policy works hand-in-hand with monetary policy. Fiscal choices that add to inflationary pressures will result in even higher policy rates to control inflation. This means that policy support to shield families and firms from the energy shock should be targeted and temporary, protecting vulnerable households and firms without adding to inflationary pressures and increasing public debt burdens. Governments have already done a lot to ease the economic pain from high energy and food prices, including price caps, price, and income subsidies, and reduced taxes. However, since energy prices are likely to remain high and volatile for some time, untargeted measures to keep prices down will become increasingly unaffordable, and could discourage the needed energy savings.

In most economies, amid the cost-of-living crisis, the priority remains to achieve sustained disinflation. With tighter monetary conditions and lower growth potentially affecting financial and debt stability, it is necessary to deploy macro-prudential tools and strengthen debt restructuring frameworks. Accelerating COVID-19 vaccinations in China would safeguard the recovery, with positive cross-border spillovers. Fiscal support should be better targeted at those most affected by elevated food and energy prices, and broad-based fiscal relief measures should be withdrawn.

Energy markets remain among the significant downside risks around this outlook. Europe has gone a long way to replenish its natural gas reserves and curb demand, but this winter in the Northern Hemisphere will certainly be challenging. The situation might be even more complicated in the winter of 2023-2024, as replenishing gas reserves might prove more difficult next year. Higher gas prices, or outright gas supply disruptions, would entail significantly weaker growth and higher inflation in Europe and the world in 2023 and 2024.

Rising interest rates will also pose many challenges and risks. Debt repayment will be more expensive for firms, governments, and households who have variable rate debt obligations or when taking on new debt. We are particularly concerned about low-income countries, over half of which are already in (or at high risk of) debt distress and now face tightening financial conditions. Currency depreciation vis-à-vis the US dollar in many of these countries, and in emerging markets, adds to these risks.

Russia's war against Ukraine is also aggravating global food insecurity by putting pressure on prices, supplies, and food affordability. Some of the most vulnerable people around the globe face the highest risk of food insecurity, and many governments lack the means to address this problem. Keeping markets open and agricultural goods flowing, as well as providing well-targeted aid, should be the utmost priority to avoid further food disruptions and hunger in many of these countries.

3. OVERVIEW OF THE INDIAN ECONOMY

India is set to be the second-fastest growing economy in the G20 in FY 2022-23, despite decelerating global demand and the tightening of monetary policy to manage inflationary pressures. GDP growth will slow to 5.7% in FY 2023-24, as exports and domestic demand growth moderate. Inflation will crimp private consumption but moderate at the end of the projection period, helping, along with improved global conditions, to boost growth to 6.9% in FY 2024-25, in line with the 20-year average (excluding the COVID-19 recession). After a spike in 2022, the current account deficit will narrow as import price pressures abate. High medium-term global uncertainty reinforces the importance of continued efforts to raise potential output growth and resilience. Macroeconomic stability should be pursued through monetary policy geared towards anchoring inflation expectations and fiscal policy oriented towards debt control and targeting current and capital spending. Improvements in the business climate, when combined with financial deepening and skills development, can boost investment and infrastructure and create more and better jobs. The strong recovery has slowed Economic growth has lost momentum over the summer, due to a combination of erratic rainfall, which impacted sowing activities, and falling purchasing power. Concerns over demand conditions are considerable in services and infrastructure sectors, while consumers have become cautious regarding non-essential spending due to higher prices for food and energy. Tighter financial market conditions are weighing on the demand for capital goods, a leading indicator for aggregate investment. Export growth remains well-oriented, especially for services, and the progressive entry into force of comprehensive trade agreements with major partners is helping to improve prospects. Nonetheless, the monthly energy and food import bill keeps rising and the current account deficit widened in the July-September quarter to 2.9% of GDP. Headline inflation remains above 6% (the central bank's upper bound of the tolerance band), mostly due to the trend increase in the price of food (which in India accounts for a larger share of the consumer basket than in any other G20 country). Unemployment estimates suggest improving labour market conditions in both urban and rural areas, but there are few signs of a wage-inflation spiral.

Recent Developments

India's economy has demonstrated resilience despite a challenging external environment, says the World Bank. While the deteriorating external environment will weigh on India's growth prospects, the economy is relatively well positioned to weather global spillovers compared to most other emerging markets.

Impact of a tightening global monetary policy cycle, slowing global growth and elevated commodity prices will mean that the Indian economy will experience lower growth in 2022-23 financial year compared to 2021-22. Despite these challenges, the update expects India to register a strong GDP growth and remain one of the fastest growing major economies in the world, due to robust domestic demand.

The World Bank has revised its 2022-23 GDP forecast upward to 6.9 percent from 6.5 percent (in October 2022), considering a strong outturn in India in the second quarter (July-September) of the 2022-23 financial year.

"India's economy has been remarkably resilient to the deteriorating external environment, and strong macroeconomic fundamentals have placed it in good stead compared to other emerging market economies," said Auguste Tano Kouame, World Bank's Country Director in India. "However, continued vigilance is required as adverse global developments persist."

It forecasts that the Indian economy will grow at a slightly lower rate of 6.6 percent in the 2023-24 fiscal year. **A challenging external environment will affect India's economic outlook through different channels.** It states that rapid monetary policy tightening in advanced economies has already resulted in large portfolio outflows and depreciation of the Indian Rupee while high global commodity prices have led to a widening of the current account deficit.

However, it argues that India's economy is relatively insulated from global spillovers compared to other emerging markets. This is partly because India has a large domestic market and is relatively less exposed to international trade flows. The World Bank finds that while a 1 percentage point decline in growth in the US is associated with a 0.4 percentage point decline in India's growth, the effect is around 1.5 times larger for other emerging economies. Analysis for growth spillovers from the EU and China also yields similar results.

India's external position has also improved considerably over the past decade. The current-account deficit is adequately financed by improving foreign direct investment inflows and a solid cushion of foreign exchange reserves (India has one of the largest holdings of international reserves in the world).

Policy reforms and prudent regulatory measures have also played a key role in developing resilience in the economy. Increased reliance on market borrowings has improved the transparency and credibility of fiscal policy and the government has diversified the investor base for government securities. The introduction of a formal inflation-targeting framework during the past decade was an important step in lending credibility to monetary policy decisions. While there are still some challenges in the financial sector, **the adoption of several regulatory and policy measures**—including the introduction of a new Insolvency and Bankruptcy Code and the creation of the new National Reconstruction Company Limited—**facilitated an improvement in financial sector metrics over the past five years;** these policy interventions are also expected to help alleviate pressures related to non-performing loans.

It notes that both levers of macroeconomic policy – fiscal and monetary – have played a role in managing the challenges that have emerged over the past year. The report notes that the RBI withdrew accommodative monetary policy settings in a measured approach as it balanced the need to rein in inflation while continuing to support economic growth. Fiscal policy supported the central bank's rate actions by cutting excise duty and other taxes on fuel to moderate the impact of higher global oil prices on inflation. However, it also cautions that there is a trade-off between trying to limit the adverse impact of global spillovers on India's growth and available policy space.

4. EXTERNAL ENVIRONMENT

Global Economy

Global GDP growth is estimated to fall from 3.4% in 2022 to 2.8% in 2023. The continuing Russia-Ukraine war along with central banks hiking rates to tame inflation continues to weigh on economic activity. Growth in 2022 was dampened due to rapid spread of COVID-19 variants in China and the ongoing war in Ukraine. The concerted sanctions on Russia, which supplies around 10% of the world's energy, lead to dampening growth and further straining of supply chain. The war worsens the persistent inflation across developed economies. However, the recent re-opening may lead to faster than expected recovery in 2023.

Growth rate in 2023 in USA is expected to be 1.6%, while the eurozone is expected to remain strained at 0.8%. The energy shock, a result of the war in Ukraine, continues to impact the economic activity in Europe. China's economy is set to rebound to 5.2% as mobility and industrial activity pick up after lifting of pandemic restrictions. The contraction in real estate remains a major headwind. Long-term headwinds to growth include a shrinking population and slowing productivity growth.

Economic Outlook

The factors that drove inflation in 2022 are already reversing. These include increase in commodity prices, expansive fiscal and monetary policy, and supply chain disruptions. Global inflation is expected to fall from 8.7% in 2022 to 7% in 2023 on the back of lower commodity prices. Inflation has already peaked in the US and Europe in early 2023. It is also declining in other major economies including Japan, China and India. In the US, economic growth is expected to be slower in 2023 given the tightening monetary and fiscal policy. Contrary to late 2022 estimates, US will avoid a recession due to declining energy prices, strong employment growth, and easing of supply chain stress. Threat of recession continuous to loom over Europe as wages and consumer spending has fallen significantly. Elevated natural gas prices are fuelling inflation and driving down purchasing power. The tightening of monetary policy by ECB and Bank of England along with energy shock resulting from the Russia-Ukraine war will play a key impact on the growth potential.

Indian Economy

GDP growth rate in 2023 is expected to be 5.9%, lower than the 2022 growth of 6.8% due to subdued external demand and tightening monetary policy. However, India will remain the fastest growing major economy. Brent oil prices are expected to remain rangebound in 2023, given the continuing war in Ukraine and sanctions imposed in response by the USA and European Union. India meets nearly 80% of its oil needs through imports. High oil prices will also have a trickledown effect on the prices paid by consumers for goods and services. Persistent inflation resulted in RBI to increase the repo rate by 250 basis points throughout FY2022-23. Further rate hikes are expected in the coming year, despite no rate hike in the April Monetary Policy Committee meeting. Capital investment of close to 3.3% of GDP is expected to crowd-in private investment, strengthen job creation and demand, and raise India's overall growth potential. Focus is expected in the energy sector, with significant capital investments towards energy transition and green hydrogen mission. Overall, the key steel consuming sectors are expected to perform well in FY2023-24 supported by a rise in infrastructure spend by the Government and gradually improving semiconductor supply. High CAPEX allocation 116th 251 in key steel consuming sectors such as railways, national highways and housing is expected to drive steel consumption.

5. STEEL INDUSTRY AND DEVELOPMENTS

Global Steel Industry

The recovery momentum of global economy after the pandemic has been affected by persisting inflation, US monetary tightening, China's economic deceleration and continued supply disruptions due to Russia-Ukraine war. High energy prices, rising interest rates, and falling confidence have limited recovery of the steel demand after a dip in 2022. However, positive factors like China's re-opening, Europe's resilience during the energy crisis and preliminary easing in supply chain bottleneck will lead to a Y-o-Y rise in global steel demand by ~2.3% (~1,822 MnT) in 2023. The Chinese steel demand is expected to grow by ~2% in 2023 after 3.5% decline in 2022. The growth may be attributed to base effect and slight uptick in real estate after decline in 2022 due COVID-19 lockdowns, slump in the property market and continued focus on sustainability. The European steel demand is expected to fall further by 0.4% in 2023 after ~8% decline in 2022. Demand in the USA is expected to grow moderately by ~1% in 2023 backed by relief in infrastructure segment with 2021 Infrastructure Law and Inflation Reduction Act. The year witnessed very high volatility in raw material, especially coking coal on account of the on-going geopolitical concerns and supply chain bottlenecks impacting steel price across geographies.

Demand Outlook

Demand in the US is expected to grow moderately by 1.3% in 2023 by relief in infrastructure segment aided by recent legislations like 2021 Infrastructure Law and Inflation Reduction Act. Recovery in Japan and South Korea may gain pace with strengthening construction segment and easing supply chain and exports. Global steel demand is expected to grow by 1.7% reaching 1,854 MnT driven by growth in Asia, China's re-opening, diversifying supply chains and Europe's resilience. Demand in Europe is expected to see a 5.6% rebound in 2024 after 4 consecutive years of Y-o-Y contraction in the steel demand.

Sustained inflation remains a downside risk, potentially keeping interest rates high. Exports are expected to decline further with rise in protectionism and slowdown in global demand. As China's population declines and moves to consumption-driven growth, its contribution to global steel demand growth will lessen. Outlook for India remains positive led by strong urban consumption and infrastructure spending.

Indian Steel Industry

India remains the 'bright spot' for global steel demand. After growth of 8.2% in 2022, demand is expected to show healthy growth of 7.3% in 2023 backed by consumption led demand. Having managed inflation well, the Indian economy is on a healthy growth track, with a rising share of investment in GDP, appropriate budget allocations and expenditure by the Government in the infrastructure segment. India also faced supply disruptions due to raw material constraints and volatility of prices. 4. Outlook for Indian Steel Industry Indian steel demand is expected to be robust and growing by 6.2% in FY2023-24 supported by strong GDP growth forecast, private consumption and Government expenditure. India's capital goods sector is also expected to benefit from the momentum in infrastructure and investment in renewable energy. Automotive and consumer durables are expected to maintain healthy growth driven by sustained growth in private consumption. Integrated Steel Players will continue to add capacity in FY2023-24, and utilisation levels are expected to remain healthy at ~80%. Net export position is expected to strengthen with removal of export duty.

6. OUTLOOK FOR INDIAN STEEL INDUSTRY

INDIAN STEEL INDUSTRY

Introduction

One of the primary forces behind industrialization has been the use of metals. Steel has traditionally occupied a top spot among metals. Steel production and consumption are frequently seen as measures of a country's economic development because it is both a raw material and an intermediary product. Therefore, it would not be an exaggeration to argue that the steel sector has always been at the forefront of industrial progress and that it is the foundation of any economy. The Indian steel industry is classified into three categories - major producers, main producers and secondary producers.

As of April 2022, India was the world's second-largest producer of crude steel, with an output of 10.14 MT. In FY22, the production of crude steel and finished steel stood at 133.596 MT and 120.01 MT, respectively. In April-Oct 2022, the production of crude steel and finished steel stood at 71.56 MT and 68.17 MT respectively. The growth in the Indian steel sector has been driven by the domestic availability of raw materials such as iron ore and cost-effective labour. Consequently, the steel sector has been a major contributor to India's manufacturing output.

The Indian steel industry is modern, with state-of-the-art steel mills. It has always strived for continuous modernisation of older plants and up-gradation to higher energy efficiency levels.

In the past 10–12 years, India's steel sector has expanded significantly. Production has increased by 75% since 2008, while domestic steel demand has increased by almost 80%. The capacity for producing steel has grown concurrently, and the rise has been largely organic.

In FY22, the production of crude steel and finished steel stood at 133.596 MT and 120.01 MT, respectively. The consumption of finished steel stood at 105.751 MT in FY22. In April 2022, India's finished steel consumption stood at 9.072 MT. In April-July 2022, the production of crude steel and finished steel stood at 40.95 MT and 38.55 MT respectively.

In FY22, exports and imports of finished steel stood at 13.49 MT and 4.67 MT, respectively. In FY22, India's export rose by 25.1% YoY, compared with 2021. In FY21, India exported 9.49 MT of finished steel. In July 2022 exports of finished steel stood at 3.80 lakh MT.

The annual production of steel is anticipated to exceed 300 million tonnes by 2030–2031. By 2030–31, crude steel production is projected to reach 255 million tonnes at 85% capacity utilization achieving 230 million tonnes of finished steel production, assuming a 10% yield loss or a 90% conversion ratio for the conversion of raw steel to finished steel. With net exports of 24 million tonnes, consumption is expected to reach 206 million tonnes by the years 2030–1931. As a result, it is anticipated that per-person steel consumption will grow to 160 kg.

Investments

The steel industry and its associated mining and metallurgy sectors have seen major investments and developments in the recent past.

According to the data released by the Department for Promotion of Industry and Internal Trade (DPIIT), between April 2000-September 2022, Indian metallurgical industries attracted FDI inflows of US\$ 17.09 billion.

In FY22, demand for steel is expected to increase by 17% to 110 million tonnes, driven by rising construction activities.

Government Initiatives

Some of the other recent Government initiatives in this sector are as follows:

- In October 2021, the government announced guidelines for the approved specialty steel production-linked incentive (PLI) scheme.
- In October 2021, India and Russia signed an MoU to carry out R&D in the steel sector and produce coking coal (used in steel making).
- In July 2021, the Union Cabinet approved the production-linked incentive (PLI) scheme for specialty steel. The scheme is expected to attract investment worth ~Rs. 400 billion (US\$ 5.37 billion) and expand specialty steel capacity by 25 million tonnes (MT), to 42 MT in FY27, from 18 MT in FY21.
- In June 2021, Minister of Steel & Petroleum & Natural Gas, Mr. Dharmendra Pradhan addressed the webinar on 'Making Eastern India a manufacturing hub with respect to metallurgical industries', organised by the Indian Institute of Metals. In 2020, 'Mission Purvodaya' was launched to accelerate the development of the eastern states of India (Odisha, Jharkhand, Chhattisgarh, West Bengal and the northern part of Andhra Pradesh) through the establishment of an integrated steel hub in Kolkata, West Bengal. Eastern India has the potential to add >75% of the country's incremental steel capacity. It is expected that of the 300 MT capacity by 2030-31, >200 MT can come from this region alone.
- In June 2021, JSW Steel, CSIR-National Chemical Lab (NCL), Scottish Development International (SDI) and India H2 Alliance (IH2A) joined forces to commercialise hydrogen in the steel and cement sectors.
- Under the Union Budget 2022-23, the government allocated Rs. 47 crore (US\$ 6.2 million) to the Ministry of Steel. The budget's focus is on creating infrastructure and manufacturing to propel the economy.
- In addition, enhanced outlays for key sectors such as defence services, railways, roads, transport and highways would provide impetus to steel consumption.
- In January 2021, the Ministry of Steel, Government of India, signed a Memorandum of Cooperation (MoC) with the Ministry of Economy, Trade and Industry, Government of Japan, to boost the steel sector through joint activities under the framework of India–Japan Steel Dialogue.

- The Union Cabinet, Government of India approved the National Steel Policy (NSP) 2017, as it intends to create a globally competitive steel industry in India. NSP 2017 envisage 300 million tonnes (MT) steel-making capacity and 160 kgs per capita steel consumption by 2030-31.
- The Ministry of Steel is facilitating the setting up of an industry driven Steel Research and Technology Mission of India (SRTMI) in association with the public and private sector steel companies to spearhead research and development activities in the iron and steel industry at an initial corpus of Rs. 200 crore (US\$ 30 million).
- The Government of India raised import duty on most steel items twice, each time by 2.5% and imposed measures including anti-dumping and safeguard duties on iron and steel items.

Road Ahead

The steel industry has emerged as a major focus area given the dependence of a diverse range of sectors on its output as India works to become a manufacturing powerhouse through policy initiatives like Make in India. With the industry accounting for about 2% of the nation's GDP, India ranks as the world's second-largest producer of steel and is poised to overtake China as the world's second-largest consumer of steel. Both the industry and the nation's export manufacturing capacity have the potential to help India regain its favourable steel trade balance.

The National Steel Policy, 2017 envisage 300 million tonnes of production capacity by 2030-31. The per capita consumption of steel has increased from 57.6 kgs to 74.1 kgs during the last five years. The government has a fixed objective of increasing rural consumption of steel from the current 19.6 kg/per capita to 38 kg/per capita by 2030-31. As per Indian Steel Association (ISA), steel demand will grow by 7.2% in 2019-20 and 2020-21.

Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors.

7. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has an Internal Financial Controls ('IFC') framework, commensurate with the size, scale, and complexity of the Company's operations. The Board of Directors of the Company is responsible for ensuring that IFC have been laid down by the Company and that such controls are adequate and operating effectively. The internal control framework has been designed to provide reasonable assurance with respect to recording and providing reliable financial and operational information, complying with applicable laws, safeguarding assets from unauthorised use, executing transactions with proper authorization and ensuring compliance with corporate policies. The Company's internal financial control framework is commensurate with the size and operations of the business and is in line with the requirements of the Companies Act, 2013.

The Company has laid down Standard Operating Procedures and policies to guide the operations of each of its functions. Business heads are responsible to ensure compliance with these policies and procedures. Robust and continuous internal monitoring mechanisms ensure timely identification of risks and issues. The management, statutory auditors and internal auditors have also carried out adequate due diligence of the control environment of the Company through rigorous testing.

The Internal Audit team monitors and evaluates the efficacy and adequacy of internal control systems in the Company, its compliance with operating systems, accounting procedures, and policies at all locations of the Company and its subsidiaries. Based on the report of internal audit function, process owners undertake corrective action(s) in their respective area(s) and thereby strengthen the controls. Significant audit observations and corrective action(s) thereon are presented to the Audit Committee. The Audit Committee at its meetings, reviews the reports submitted by the Internal Auditor. Also, the Audit Committee at frequent intervals has independent sessions with the statutory auditor and the Management to discuss the adequacy and effectiveness of internal financial controls.

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

For the Financial Year ended 31st March, 2023

To,
The Members,
AANCHAL ISPAT LIMITED
Mouza- Chamarail National Highway 6
Liluah, Howrah-711114
West Bengal

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Aanchal Ispat Limited** (hereinafter called '**the company**'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the company's books, papers, minute books, registers, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on 31st March, 2023 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:-

I have examined the books, papers, minute books, registers, forms and returns filed and other records maintained by Aanchal Ispat Limited ("the Company") as given in **Annexure-I**, for the financial year ended on 31st March, 2023 according to the provisions of: -

- (i) The Companies Act, 2013 ("**the Act**") and the rules made thereunder including statutory amendments made thereto and modifications thereof for the time being in force;
- (ii) The Securities Contracts (Regulation) Act, 1956 ("**SCRA**") and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings; (**Not Applicable to the company during the audit period**);
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ("**SEBI Act**"), to the extent applicable: -
 - (a) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;

The Company was supposed to make the intimation within seven working days from the end of each financial year i.e., 08.04.2023. However, the same was reported on 10th May, 2023 after receiving mail from BSE regarding non-submission of declaration under Regulation 31 (4).
5	Regulation 17 of SEBI LODR Regulations, 2015	Non-compliance with requirements pertaining to the composition of the Board for the quarter ended June, 2022.	The Company has made an application to Bombay Stock Exchange ("BSE") for waiver of fees imposed on the Company.
6	Regulation 17 of SEBI LODR Regulations, 2015	The Chairman of the Company is an Executive Director; hence the Company was required to have at least half of the Board of Directors of Independent Director. Whereas, the Company has only two Independent Director out of total Five Directors of the Company for the quarter ended September, 2022	The Company has made an application to Bombay Stock Exchange ("BSE") for waiver of fees imposed on the Company.
7	Section 197 and 198 of the Companies Act, 2013 read with Schedule V	The Company can pay remuneration to the managerial person or other Director in case of no profits or its profits are inadequate, if the company has not committed any default in payment of dues to any bank or public financial institution or non-convertible debenture holders or any other secured creditor.	The management has informed that the Company has defaulted in repayment of principal and interest payments from October 2022 and has unintentionally paid remuneration to KMP which is not in accordance with the provisions of the Companies Act, 2013. However, Section 197(9) of Companies Act, 2013 states that "If any director draws or receives, directly or indirectly, by way of remuneration any such sums in excess of the limit prescribed by this

			<p>section or without approval required under this section, he shall refund such sums to the company, within two years or such lesser period as may be allowed by the company, and until such sum is refunded, hold it in trust for the company”.</p> <p>The management informed that the said amount will be refunded by the KMP in the FY 2023-24.</p>

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone financial statements of the current period. These matters were addressed in the context of our audit of the Standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Related party transactions

See note 26 to the standalone financial statements

The key audit matter	How the matter was addressed in our audit
<p>We identified the accuracy and completeness of disclosure of related party transactions as set out in respective notes to the standalone Ind AS financial statements as a key audit matter due to:</p> <p>The significance of transactions with related parties during the year ended March 31, 2023.</p>	<p>Our procedures in relation to the disclosure of related party transactions included:</p> <ol style="list-style-type: none"> 1. Obtaining an understanding of the Company's policies and procedures in respect of the capturing of related party transactions and how management ensures all transactions and balances with related parties have been disclosed in the standalone Ind AS financial statements. 2. Obtaining an understanding of the Company's policies and procedures in respect of evaluating arms-length pricing and approval process by the audit committee and the board of directors. 3. Agreeing the amounts disclosed to underlying documentation and reading relevant agreements, evaluation of arms –length, on as ample basis, as part of our evaluation of the disclosure.

Tax litigations – provisions and contingencies

See note 27 to the standalone financial statements

The key audit matter	How the matter was addressed in our audit
<p>The Company is involved in several ongoing direct and indirect tax litigations</p> <p>A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.</p> <p>We have identified tax litigations, provisions and contingencies as a key audit matter because it requires the management to make judgements and estimates in relation to the exposure arising out of litigations. The key judgement lies in the estimation of provisions where they may differ from the future obligations. The Company operates under several tax laws and some of these have a significant impact on the financial statements of the Company.</p>	<p>We have applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ol style="list-style-type: none"> 1. We tested the effectiveness of key controls around the recording and assessment of tax provisions and contingent liabilities. 2. We assessed the value of the provisions and contingent liabilities in light of the nature of the exposures, applicable regulations and related correspondences with the authorities. 3. We assessed the relevant historical and recent judgments passed by the court authorities. 4. Obtained Management's assessment of the open cases and compared to assess the reasonableness of the provision or contingency.

Information other than the financial statements and auditors' report thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report but does not include the IND AS financial statements and our auditor's report thereon.

Our opinion on the IND AS financial statement does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the IND AS financial statement, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Management's Responsibility and Those charged with Governance for the Financial Statement

The Company's Board of Directors is responsible for the matters in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the IND AS financial statement, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the IND AS financial statement as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these IND AS financial statement.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the IND AS financial statement, whether

due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the IND AS financial statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the IND AS financial statement, including the disclosures, and whether the IND AS financial statement represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the IND AS financial statement of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

“Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of M/s AANCHAL ISPAT LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of AANCHAL ISPAT LIMITED (“the Company”) as of March 31, 2023 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting except note given in Audit Report in opinion paragraph for Sundry debtors and advance.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of

records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Basis for Opinion

According to information and explanation given to us and based on our audit, the following material weakness have been identified in the effectiveness of the Company's internal financial controls over financing reporting as at March 31, 2023:

a) Refer to Note 5 and 9 of the financial statements, in respect of long outstanding overdue trade receivables and advance, whereby evidences of control over monitoring / assessing recoverability of such over dues, including assessment of provision of provision for doubtful trade receivables and advances were not operation effectively. This could potentially result in the company not recognizing a provision for doubtful / old overdue trade receivables. However Company made bad debts of certain old debts during the year under review.

b) The Company's internal controls over updating the customers/ vendors master data with present addresses wire not operating effectively.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”

1) NOTES AND SIGNIFICANT ACCOUNTING POLICIES**(I) General Corporate Information**

M/s AANCHAL ISPAT LIMITED (the company) is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The shares of the company are listed on Bombay Stock Exchange. The company caters to domestic markets only. The company has been incorporated with the object of manufacturing of Mild Steel TMT Re-bars, Structural Re-bars, Round and other Sectional products.

The Company also engages in trading of Mild Steel Billets, Cement and Clinker and TMT and Structural Re-Bars

(II) Statement of compliance

Standalone financial statements have been prepared in accordance with accounting principles generally accepted in India including Indian Accounting Standard (Ind AS) prescribed under the section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirement of Division II of Schedule III of the Companies Act 2013, as applicable to standalone financial statement.

(III) Basis of preparation and presentation

These financial statements of the Company are prepared under the historical cost except for certain financial instruments that are measured at fair value at end of each reporting period. Historical cost is generally based on fair value of the consideration given in exchange for goods and services

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised in to Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability

The Financial Statements is presented in INR and all values are rounded to the nearest lakhs (upto two decimal) except when otherwise stated.

(IV) Use of Estimates

The preparation of separate financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the separate financial statements and the reported amounts of income and expense for the periods presented. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. Future results could defer due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/materialise.

(V) Revenue Recognition**(i) Sale of goods**

Revenue from the sale of goods is recognised when the goods are delivered and titles have been passed, at which time all the following conditions are satisfied:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

(ii) Dividend and Interest income

Dividend income is recognised when the company's right to receive dividend is established. Interest income is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate applicable.

(VI) Foreign currencies

Transactions in currencies other than entity's functional currency (foreign currency) are recorded at the rates of exchange prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies remaining unsettled at the end of the each reporting period are re-measured at the rates of exchange prevailing at that date.

(VII) Employee Benefits

i) Short-term benefits Short term employee benefits are recognised as an expense at the undiscounted amount in the statement of profit and loss of the year in which the related service is rendered.

ii) Defined contribution retirement benefits Payments to defined contribution retirement benefits are recognised as an expense when employees have rendered services entitling them to the contributions. Defined contribution plans are those plans where the Company pays fixed contributions to funds/schemes. Contributions are paid in return for services rendered by the employees during the year. The contributions are expensed as they are incurred in line with the treatment of wages and salaries. The liability as on the balance sheet is ascertained by an independent actuarial valuation.

iii) Defined benefit retirement benefits the cost of providing defined benefit retirement benefits are determined & recognised as per independent actuarial valuations report carried out at the end of each reporting period. The Company provides gratuity to its employees. All actuarial gains or losses are recognised in the statement of profit and loss in the period in which they occur.

(VIII) Taxation**i) Current tax**

Current tax is payable based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates in accordance with the provisions of the Income Tax Act, 1961.

ii) Deferred tax

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right to such set off. Deferred tax assets are reviewed at each Balance Sheet date for their reliability.

iii) Minimum alternate tax

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is recognised as an asset in the balance sheet. When there is convincing evidence that the Company will pay normal income tax during the specified period and it is probable that future economic benefit associated with it will flow to the Company.

iii) Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they are relating to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively. Where current tax or

deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

(IX) Property, Plant and equipment

a) Buildings and Roads, Plant and Equipment, Furniture and Fixtures and Vehicles held for use in the production or supply of goods or services, or for administrative purposes are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes purchase cost of materials, including import duties and non-refundable taxes, any directly attributable costs of bringing an asset to the location and condition of its intended use and borrowing costs capitalised in accordance with the Company's accounting policy.

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over the useful lives, using the straight-line method. Depreciation of assets commences when the assets are ready for their intended use. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any changes is accounted as change in estimate on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is recognised in the statement of profit and loss.

The Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as of April 1, 2016 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

(X) Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment (if any) losses. Amortisation is recognised over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquire separately are carried at cost less accumulated impairment losses. Estimated useful lives of the intangible assets are as follows:

An intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of intangible assets is recognised in the statement of profit and loss.

The Company has elected to continue with the carrying value of all of its intangible assets recognised as of April 1, 2015 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

(XI) Impairment of assets

AANCHAL ISPAT LIMITED

Email: info@aanchalispac.com, Tel: 03212-246121,

The carrying values of assets/cash generating units at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased such reversal of impairment loss is recognised in the Statement of Profit and Loss.

(XII) Inventories

Raw materials, work-in-progress and finished products are valued at lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary and stores and Spares are valued at cost less write off for obsolescence. Cost includes purchase price, non refundable taxes and duties and other directly attributable costs incurred in bringing the goods to the point of sale. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty. Net realisable value is the price at which the inventories can be realised in the normal course of business after allowing for the cost of conversion from their existing state to a finished condition and for the cost of marketing, selling and distribution.

Stores and spares are valued at cost comprising of purchase price, non refundable taxes and duties and other directly attributable costs after providing for obsolescence and other losses, where considered necessary.

(XIII) Provisions, Contingent liabilities and Contingent assets**(i) Provisions**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses. Provisions are not discounted to their present value are measured at the management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

(ii) Contingent liabilities and assets

Contingent liability is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or is a present obligation that arises from past events but is not recognised because either it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or a reliable estimate of the amount of the obligation cannot be made. Contingent liabilities are disclosed and not recognised. In the normal course of business, contingent liabilities may arise from litigation and other claims against the company. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities and disclosed in the notes but are not reflected as liabilities in the financial statements. Although there can

be no assurance regarding the final outcome of the legal proceedings in which the company is involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

(XIV) Foreign exchange gain and losses

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

(XV) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, Cash and cash equivalents includes cash on hand and short term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(XVI) Trade and other payables

These amounts represent liabilities for goods and services received by the Company prior to the end of reporting period which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost.

(XVII) Borrowing costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to Profit and Loss account.

(XVIII) Earnings per share

Basic earnings per share are computed by dividing the profit after tax before other comprehensive income by the weighted average number of equity shares outstanding during the financial year. Diluted earnings per share are computed by dividing the profit after tax by the weighted average number of equity and dilutive equity equivalent shares outstanding during the year.

XIX) Events Occurring After Balance Sheet Date

Assets and liabilities are adjusted for events occurring after balance sheet date that provide additional evidence to assist the estimation of amounts relating to condition existing at the balance sheet date.

XX) Net Profit or Loss for the Period, Prior Period Items, and Changes in Accounting Policies

Significant items of extraordinary items, and prior period incomes and expenditures, are accounted in accordance with Accounting Standard 5.

Company has paid for Rs 8,77,974/- as GST relating to the A.Y.2017-18 treated as a prior period item

XXI) Accounting for Government Grants

1. Grants and subsidies from the government are recognized when there is reasonable assurance that the company will comply with the conditions attached to them and the grant / subsidy will be received.
2. When the grant or subsidy relates to revenue, it is recognised as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grants relate to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the released asset.
3. Where the company receives non-monetary grants, the asset is accounted for on the basis of its acquisition cost. If a non-monetary asset is given free of cost it is recognised at nominal value.

XXII) Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All the other investments are classified as long term investments.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. However, provision for this diminution in value is made to recognize a decline other than temporary in the value of investment.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

Explanatory Statement pursuant to section 102 (1) of the Companies Act, 2013, (The Act)

Item No. 3

Ratification of Cost Auditor's Remuneration FY 2023-24

The Board of Directors, upon recommendation of the Audit Committee, approved the appointment of M/s. Rana Ghosh & Co, Mr. Rana Ghosh as Cost Auditor to conduct the audit of the cost records of the Company for the financial year 2023-2024 on the remuneration payable to them as per details furnished in item no. 3 of the Notice of the Annual General Meeting.

In accordance with the provisions of Section 148 of the Act read with Rule 14 (a) of the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors is required to be ratified by the shareholders of the Company. Accordingly, consent of the Shareholders is being sought for ratification of the remuneration payable to the Cost Auditors for the financial year 2023-2024.

None of the Directors and Key Managerial Personnel of the Company, including their relatives are concerned with or interested in, financially or otherwise, in the resolution as set out at item no. 3.

The Board recommends the Ordinary Resolution set out at Item No. 3 for approval by shareholders.

Item No. 4:

Re-appointment of Ms. Nilu Nigania (DIN: 08203037) as an Independent Director of the Company

Ms. Nilu Nigania, was appointed as a Woman Non-Executive & Independent (Additional) Director on the Board of the Company w.e.f. 14th of August, 2018. She was further regularised in the Annual General Meeting held on 21st September, 2018 as an Independent Director for 5 (five) years effective from the date of appointment by the Board. The nomination and remuneration committee, at its meeting held on August 14, 2023 after taking into account the performance evaluation of Ms. Nilu Nigania during her first term of five years and considering her knowledge, acumen, expertise, experience and substantial contribution and time commitment, has recommended to the Board her reappointment for a second term of five years. The nomination and remuneration committee has considered her diverse skills, leadership capabilities, expertise in governance and finance, risk management and vast global business experience, among others, as being key requirements for this role. In view of the above, the nomination and remuneration committee and the Board are of the view that she possesses the requisite skills and capabilities, which would be of immense benefit to the Company, and hence, it is desirable to reappoint him as an independent director.

Based on the recommendation of the nomination and remuneration committee, the Board, at its meeting held on August 14, 2023 has recommended the reappointment of Ms. Nilu Nigania as an independent director, not liable to retire by rotation, for a second term of five years effective from August 14, 2023 to August 13, 2028.
